Professional experience

2025 ● **Full-Stack Developer**

Hovercode, Remote

Developed the Hovercode web platform and developer API, as well as built customer integrations across a multitude of platforms such as Figma, Chrome, Canva and iOS. Tech stack included Python, Django, Go, TypeScript, React, Vue, Tailwind, Swift, Figma.

2024 ● **Lead Frontend Software Engineer**

myuser, Remote

Led CRM web app development at myuser, utilising Vue 3, TypeScript, Go, Firebase, OpenAI API, and Figma. Managed project with Jira and CI/CD pipelines via Git and Github Actions.

2023 ● **Product Design & Engineering Lead**

Confidential client, Remote

Leading a small team of designers and engineers, revamped the UI and built backend features for a popular entertainment platform using Next.js, TypeScript, TailwindCSS, Firebase, Stripe, Figma, and Lucidchart. Facilitated team growth, managed projects with Git and Jira.

2022 ● **Design Engineer**

Prodia, Remote

Developed multiple iterations of app.prodia.com, focusing on rapid iteration with CSS3, Vue 3, TypeScript. Collaborated with cross functional teams teams to optimise product versions.

2020 ● **Frontend Developer & UI/UX Designer**

Remote

As a freelance engineer and designer, my role entailed working with cross functional teams to deliver high quality experiences to users. During this time, I worked with an array of technologies such as Vue, React, JavaScript, Typescript, Tailwind and Figma.

2019 ● **SIA Security Officer**

Legendary Security, Brighton, UK

As security personnel for Legendary Security my responsibilities included safeguarding customers and staff, resolving conflicts, working within a team and maintaining composure in high-pressure situations.
